SYRUP FROM CHINESE SORGHUM -Among the artion exhibition at the recent Fair at San Jose was jar of syrup, of excellent quality and flavor, manuared by Geo. W. Towle, of Santa Clara, from the se sugar millet. Mr. Towle informs the San Juse Telegraph that he cut a hundred stalks of the millet, broke and pressed the juice therefrom with a heavy iron roller, boiled the juice to a proper consistency, and obtained two quarts of the syrup. He is of opinion, that an acre of millet would produce one thousand gallons of syrup .- S. F. paper.

The Emperor and Empress left yesterday, August 6, for the Isle of Wight on a visit to the Queen of England. Their Majesties arrived at Havre in the evening and left that place in the Reine Hortense at 11 o'clock at night. They will remain at Osborne three days. This visit, at first announced as a mere visit of pleasure, is probably in which will be discussed and regulated some ve affairs of state. The conference will consist of the two Majesties, (the Empress Eugenie being excluded as well as the Prince Consort,) of the Count Walewski, (French Minister of Foreign Affairs, who accompanied their Majesties) the French Ambassador at London, M. de Persigny, and Lords Palmerston and Clarendon—two powerful monarchs and four leading Ministers. How could it be possible, in the present state of affairs, for such a conjunction to take place without political debates? See the number of questions that now interests both countries: that of China, of the Indian Empire.

refuge given to conspirators against the Emperors life, the new negro colonization question, the Suez canal, the seizure of Perim, etc., etc. All these will expect to see more decisive action in the future as the result of this imperial and royal conference. REINFORCEMENTS FOR KANSAS.—The War Department at Washington are evidently making prepara-tion to look down all opposition on the part of the

ree State men in Kansas at the October election .-Some two thousand additional troops it appears have been ordered to Kansas, for what earthly purpose we have yet to learn, unless it may be to carry out the measures of the "bogus Legislature" by rifle balls and at the point of the bayonet. A dispatch from Washington Sept. 2d to the New

York Herald says :-The War Department to-day sent out orders to the following troops to put themselves en route for Kansas: ten companies of the First Cavalry, under command of Col. Summer and Lieut. Col. Johnson; seven mand of Col. Summer and Lieut. Col. Johnson; seven companies of Sixth Infantry, under the same command; ten companies of Second Artillery, from Florida; two companies of Second Artillery, from Fort Monroe; two companies of Second Artillery from Fort Snelling; one light battery company from Fort McHenry, which, if the average strength of the companies be 60, will give a force of upwards of 2,000 men. Gen. Harney will remain in command of Kansas. Col. Albert S. Johnson, late from Texas, has been assigned to the command of the troops to Utah. been assigned to the command of the troops to Utah. NICARAGUA.- A Washington despatch of the 1st Sept. states that a messenger had arrived there with a proposal from the heads of the church and several of the highest officers in the army of Nicaragua for General Walker to come back and place himself at the head of affairs, and has also brought with him papers of interest to the government, as well as the

Mr. Sullivan, H. B. M.'s Charge d'Affaires at Lima, Peru, died from the effect of the wound inflicted on him by assassins on the 11th August. The funeral took place on the 15th. No clue has us yet been received to the perpetrators of the crime. The government have offered a reward of \$10,000, and the British residents have offered \$50,000 more, payable by George Fernandez, Esq., to any of the assassins who will inform, and the personal safety of the informer shall be guarranteed and the strictest se-

INDIA.—Delhi still holds out, the rainy season had set in, which it was doubtful whether the British troops could withstand. To the north of Delhi the British had defeated the mutineers, but to the south

the revolution was spreading: the armies of Bombay and Walras have remained faithful.

The Overland Mail arrived on August 13 with news from Calcutta to the 5th and Bombay to the 15th Jain. Jaly. There had been two most severe engagements outside the walls, and the mutineers repulsed with great less. They fought desperately. Gen. Barnard had received reinforcements, and had 7,000 British placed. He had a seige train. The mutineers are mid to be embarrassed with sick, wounded and dead, said to be embarrassed with sick, wounded and dead, with cholera in addition. The mutiny had spread in nine other districts in Oude, Delhi, Bundelcund, &c. The Punjaub was quiet, and the armies of Bombay and Madras continue firmly loyal. The first detachments of the China troops had arrived at Calcutta on the 2d of July, and created fresh confidence. Both at Calcutta and Bombay it was the general impression that the worst of the mutiny had passed. Sir Colin Campbell arrived at Aden on the 28th July. The reinforcements to India now amount to 30,000

The reinforcements to India now amount to 30,000 men; already 12,000 have been dispatched, and 5,400 of the China force diverted to Calcutta. 5,400 are in course of embarkation, and the remainder will embarked in the course of another week. The home defences will be provided for by recruiting, by the formation of new battalions and embodying a por-tion of the militia. The impression in England now is, that they have seen the worst of the mutiny.

"WHO IS MY NEIGHBOR?"-The London Times thus concludes an article on the electric telegraph: "The moment that shoots the first electric across the Atlantic from Monarchical England to Republican America commences an era that will ultimately afford a triumph to democratic principles.— The people of all nations are evidently being brought ogether, and justice and truth will be universally disseminated on the wires of the magnetic telegraph. The question will no more be asked, "Who is my neighbor?" but the spirit which dictated the divine answer to that all-important query will be disseminated, and we shall all acknowledge that the distant Samaritan with whom we daily communicate is more than the priest and the Levite who pass by on the opposite side of the way. We shall not distinguish our first by the distance of the way. fees by the distance they reside from us, but shall learn that we may have friends two thousand miles learn that we may have friends two thousand miles off and enemies next door to us, and that peradventure we may communicate more freely with our democratic brethren thus far away than with our aristocratic rulers in the next park. Society is being recast, and amongst her new materials she has made to herself a framework of nerves, by which the sympathies and feelings of the million may be communicated, and these nerves are the wires of the magnetic televal."
